

Community & Neighborhood Services

The City's Department of Community and Neighborhood Services (CNS) ensures our neighborhoods and commercial districts are great places in which to live, work, and play.

Through the continuous work of Boards, Committees, and City CNS staff, we deal with diverse issues impacting residents, property owners, and visitors at scales ranging from City-wide down to individual properties.

Please click on the services listed below to learn more about our department and how we serve our fine city.
