fiscal@cityofholland.com

What Information is Available?

This site provides detailed information regarding individual property parcels for real estate property, to include various property features and characteristics, property assessments and taxable valuations, property tax and special assessment information of current and recent years. The desired information can be queried by Property Owner Name, Property Address, or Property Parcel Number.

You can view a map of the City showing the locations of parcels and property boundaries within the City limits.

Taxes and Special Assessments

Property tax information is presented for individual property parcels, reflecting both summary and detail data. At least five years of actual property tax history for a given parcel is also provided.

Special Assessment data is likewise presented concerning individual property parcels, reflecting both current and historic information. Special Assessments for road improvements, sidewalk improvements, special district lighting improvements, and certain types of infrastructure are reflected for the original and current amounts owing.

Due to the complexity of Special Assessments, and possible additional related fees that may be owing, it is imperative to contact the City Treasurer's Office (616-355-1380) for a calculation of total Special Assessment and hookup fees if an amount is displayed of \$1.00 or higher. If the Special Assessment is for water or wastewater (sewer) installation improvements, the City Treasurer's Office will refer you to the correct Board of Public Works specialist.

Property & Tax Data
