

Emerald Ash Borer Beetle Information

Press release date: 2014-07-01

Emerald Ash Borer Beetle in Holland

HOLLAND- The City of Holland Park Division Forestry Crew works in the city of Holland maintaining city trees. The Emerald Ash Borer beetle has infested many ash trees planted within the city which cause the trees to die. Our Forestry Crew is working on removing the infested ash trees within the road right-of-way. These trees are located between the sidewalk and the curb or generally within 33' from the center of the road right-of-way.

Please click the link below to read more about the Emerald Ash Borer beetle infestation.
