INSPECTIONS:

No work shall be concealed until it has been inspected.

When ready for an inspection, call Community & Neighborhood Services at (616) 355-1330. **A minimum of 24 hours' notice is required, when scheduling an inspection.**

BASE FEES:

A residential base fee will be charged for work involving 1-4 residential units on a property.

A non-residential base fee will be charged for work involving mixed use buildings (residential and commercial) and buildings with more than 4 dwelling units.

EQUIPMENT FEES – NEW FOR 2022!

If you are installing residential equipment, please select the residential equipment line-item fee. This applies to commercial, mixed use and multi-unit buildings. This may result in a non-residential base fee, with residential line-item fees.

Example: A new apartment building with 12 units is being built. Each unit will contain a residential furnace and water heater. Select the non-residential base fee, and add 12 “gas burning equipment” and 12 “water heater” at the \$6 residential rate. Additional non-residential equipment may also be added if applicable.

INSPECTION FEES:

For inspections at buildings containing more than 4 dwelling units (such as a hotel, motel, or apartment building), inspections are charged at the rate of **one inspection fee per 4 units**.

Example: If an apartment building consists of 12 units, 3 inspection fees will be charged for a rough inspection for the whole building (12 units ÷ 4 = 3 inspection fees). **Please plan accordingly.**

PERMIT EXPIRATION:

Permits expire after 180 days. Expired permit cannot be refunded or reinstated.

LATE FEES:

Late fees of \$100 per day will be charged for work started **before** a permit is issued.
