

# Country Club and Legion Park Reconstruction Start of Construction

Milbocker, the general contractor for the Country Club Project, has a planned start date of Monday, April 4, 2022. Work will start with milling removal of the pavement in the project limits. Construction in Country Club is expected to last until July. Progress will depend on the availability of materials and weather. Work may proceed to Birchwood when Country Club is finished and then to Legion Park, but is highly dependent on material availability and may happen sooner.

During the course of the work it may be necessary to temporarily shut down the water mains on the side streets to connect them to the new main. BPW door hangers will be placed on front doors prior to any water shut offs. Service connection work will be coordinated with the homeowners directly by Milbocker.

## PROJECT CONTACTS:

**Ryan Demann**  
Milbocker Foreman

269.377.1722

**Mark Gipson**

Water/Wastewater Services  
Holland BPW

616.355.1644

**Aric Thorne**

Transportation Services  
City of Holland

616.928.2444

Remember to label trash cans with house numbers.

Plan alternate routes as needed to avoid crossing construction trenches.

Flag irrigation systems to limit damage from construction.

If applicable, please be sure to share this information with your tenants and inform them of the upcoming construction.
